

STOP THE G8!

STOP CAPITALISM!

IN JUNE 2013 the G8 summit is going to be held in the UK - it will be in Northern Ireland, in fact, because they are too scared of angry protests to hold it in London.

The G8 isn't an organisation as such, but an annual meeting involving governments of eight of the world's largest economies (USA, Canada, UK, France, Germany, Italy, Russia and Japan).

Whatever their spin doctors may tell you, their whole agenda is hardcore capitalism. For instance, last year's G8 meeting pledged support for fracking and deep water drilling - both disastrous for the environment. And while they make much of their concern for "food security", this is just another way of ensuring multinational corporations can control and profit from the world's natural resources - what we really need is food sovereignty, where people have power over their own lives.

We need to make sure the G8 leaders don't have it all their own way in June. We need to be out on the streets voicing our contempt for the capitalist system and all the misery it brings. Join us in our fight!
