

Avonmouth Dust Forum

Have you been infested with flies recently?

Are you being polluted with wood and metal dust?

Are you being disturbed by noise from the Docks?

Suffering from endless colds/chest infections?

If you are a resident of Avonmouth Village and your response to any of the above questions is 'YES', then your Village needs your support!

We need to send a clear message to the Bristol Port Company that we are no longer prepared to put up with dirt, dust and noise from their Tenants, which is getting increasingly worse. To do this, we need to increase the complaints stats with the relevant Agencies.

If you are subject to any of the above, and you object to the Wood Burning Biomass Plant that is earmarked for the docks (that is currently awaiting investment), then please take 5 minutes of your time to MAKE THAT CALL.

The relevant telephone numbers are listed below.

*Avonmouth Dust
Forum*

Environment Agency: 0800 80 70 60
